

Children of the Digital Age

A GUIDE FOR PARENTS

Raise your Digital Child, with a Digital Personality safely, in today's Digital World

A Comprehensive talk for Parents and Children to highlight the Dangers which are faced online

This is a brand new presentation, formatted and presented with all Parents in mind, especially those who are not skilled in the use of modern technology. The talk highlights many serious issues, such as a child's Digital Fingerprint, Screen Addiction, Cyber Bullying, Sexting, Sextortion and many more matters that Children are exposed to Online.

Delivered by an experienced investigator and a Masters of Sciences Graduate in Forensic Computing and Cyber Crime Investigation, this in-depth talk is designed for both Parents and Children from 5 to 18. It aims to produce an awareness of the Online Dangers which are faced by Children.
